

MASHPEE RED CHAIR PROJECT 2023

STUDENT PROJECT
KAIA HOLMES

One in every four victims of human trafficking is a child, and these numbers will continue to increase as human trafficking is the fastest-growing illicit crime in the world. Despite its growing prevalence, human trafficking is often stigmatized and swept under the rug because it often involves sex crimes. This stigmatization has made victims and their advocates too afraid to speak up, leaving many valuable resources unused.

Each red chair represents a child who is missing school, their families, and their childhood due to human trafficking.

OBJECTIVE

This project aims to help victims, their families, and concerned community members access the resources needed to combat human trafficking.

These chairs will be on display throughout the summer.

100% of donations will be given to Cape Cod PATH, an organization that aims to end human trafficking on Cape Cod.

DONATION INFORMATION:

WRITE, "MashpeeRedChairProject" in the donation note to help us keep track!

THANK YOU

CHAIR LOCATIONS

- Mashpee Boys and Girls Club
